EXPERIENCE

Frontend Developer

Growth99.com

Jul 2023 – Aug 2024

Utah, USA

- Developed **250+ high-conversion landing pages** for healthcare clients (Botox, fillers, and cosmetic procedures) using HTML, CSS, JavaScript, and Bootstrap.
- Designed reusable page templates that reduced development effort by **50%** and eliminated a month-long delivery backlog within one week.
- Built KPI dashboards by integrating REST APIs into a Next.js frontend to track page views, button clicks, and engagement metrics for SmileVirtual.com.
- Improved media selection and onboarding flows, reducing user drop-offs by **50%** and increasing user retention by **30%**.
- Onboarded and mentored junior developers on UI/UX best practices and frontend performance optimization.

PROJECTS

Growth99 Scorecard Tool

React, Express, Typescript, PostgreSQL, Firebase, Python

- Built a large-scale website analysis platform used by **50+ internal employees** to evaluate SEO, performance, and security metrics.
- Designed PostgreSQL schemas to store historical audit reports for **1,000+ websites** extracted from 10+ APIs.
- Implemented fault-tolerant Python cron jobs running nightly to fetch Lighthouse, SEO, and security data.
- Optimized data pipelines, reducing report generation time from **5 minutes to under 10 seconds**.
- Enabled force refetching, PDF generation, and report downloads for internal workflows.

CollegeMate.in

React, Node.js, Typescript, Express, Prisma, PostgreSQL

- Developed a **paid mentor booking platform** where students purchase **30-minute one-on-one sessions** with mentors.
- Integrated Razorpay for payments with **idempotent APIs** to safely handle retries and prevent duplicate charges.
- Implemented concurrency-safe slot booking logic to avoid double bookings under high traffic.
- Automated session scheduling using Google Meet and Google Calendar APIs after successful payment.
